

Today in the Balearic parliament, Ana Juan, president of the Consell de Formentera, and Bartomeu Escandell, finance and tax office councillor, attended the reading of a manifesto urging the Congress of Deputies, the lower house of the Spanish legislative branch, to fast-track steps to ensure a senator for Formentera. As President Juan put it, "this manifesto is a reaffirmation of the request made by Formentera and the Balearic parliament to redress a dysfunction in the Spanish Constitution so that the voice of Formentera is directly represented in the Senate". Juan lamented VOX representatives' blocking of an official proclamation which would have been read in the final parliamentary plenary session of the legislative term.
