

The tax office of the Formentera Council announces the rollout, from August 1 to October 1, of an option to make income tax payments ahead of the normal deadline.

This year the Balearic Islands tax agency (ATIB) has introduced a service called “Virtual Wallet” (“Carter Virtual” in Catalan). Baked into the ATIB website, the new system allows people to track, print and pay fees so they can get payment alerts during the voluntary pay period.

Notice containing a special code will be sent via post to taxpayers, who must enter the ATIB website armed with their national ID card.

Besides issuing alerts and creating the possibility of early payments on one-off fees (*rebut*s) and municipal levies (*tributs*) for real estate, vehicles and business activity, the system also lets islanders to pay the regional tax on vacation rentals and camping sites.

Pay notifications can also be obtained in person by visiting the ATIB office at 9 carrer Eivissa in Sant Francesc.

Please contact formentera@atib.es with questions, or visit the office directly.
